

A FRENCHY IN PRILEP

French Riviera traditions

Today, I'm going to talk about the first thing who come in my mind : The Lemon Festival In Menton (a city close to the Italian border).

The festival celebrates the annual production of specialty lemons and other citrus fruit in Menton. All the floats and sculptures present at the carnival are created from lemons and oranges.

In 1928, Menton was the main producer of lemons on the European continent. It's in 1934 that the event have been name "Fête du citron" (Lemon festival)
Today, Menton is not known for the quantity of lemons it produces but rather for their quality.

The celebration features elaborate themed floats whose structures are covered in citrus fruit, primarily lemons and oranges, a large portion of which is imported from Spain every year.
